## Department of Nutrition Science Strategic Map 2010-2013

Mission - Advance the field of nutrition through scholarship, outreach, and training of future leaders.

Vision - To be recognized as a leading nutrition program in the Northeast.

### Goal 1:

Position the department for sustainability and growth

#### Goal 1 Strategies:

1. Recruit and maintain high quality faculty
2. Increase coordination with public relations, communications, marketing, advancement, and admissions departments
3. Create an environment that welcomes and retains students
4. Anticipate future needs and trends in the field of nutrition and public health

### Goal 2:

Prepare students to be leaders in nutrition

#### Goal 2 Strategies:

1. Continue to prepare competent graduates capable of succeeding in advanced education and/or employment
2. Provide students from diverse backgrounds with opportunities to succeed in the program
3. Provide opportunities for students that go beyond the classroom
4. Improve rigor and quality of the program

### Goal 3:

Create a dynamic environment where faculty collaborates with external and internal partners to conduct and publish research

#### Goal 3 Strategies:

1. Build a recognizable and distinct research agenda
2. Publish and present peer-reviewed and lay articles

### Goal 4:

Enhance the local and national reputation of the department

#### Goal 4 Strategies:

1. Develop and foster strategic partnerships with local and professional community organizations
2. Become recognized in the area as the authority in Nutrition
3. Foster nutrition alumni relations and partnership
